

# WHAT IS PART-TIME Ph.D?

A Part-time Ph.d is a Doctoral Study Program Having the same components as that of a traditional Ph.d Program. The Program however allows Students with a more flexible Schedule and let them complete most of their research off-site under the supervision of a dedicated faculty/guide. If you are Considering doctoral study but are reluctant to leave your job and/or have family obligations, part-time study through a Doctor of Philosophy (Ph.d) Program allows you to keep your job and lets you study at a distant school without needing to travel to another city or country.

## BENEFITS OF PART-TIME Ph.D

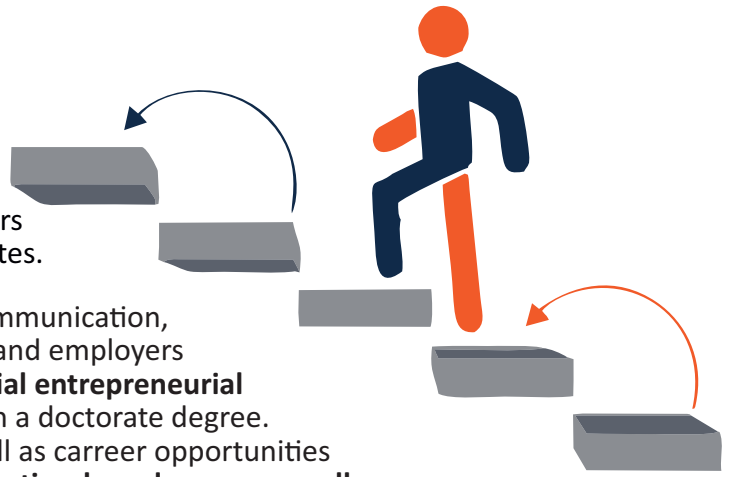

There are a lot of Advantages of Earning a Part-Time Doctoral Degree–

- **Flexibility** - Candidates can complete the entire program off-site according to his or her schedule without attending a regular campus.
- **Earn and Study** - You do not have to quit your job to enrol for a part-time doctorate degree. Candidates can work, earn and complete a PhD degree at the same time.
- **No Hourly or Credit System** - The completion of part-time doctoral degree is totally reliant on research studies and candidates do not have to depend on hourly or credit system for the completion of the course.
- **Less Duration** - You can **complete your PhD in 2 years** via a part-time doctoral program or even less if you can speed up your research.
- **Subject of your Dreams** - No one has to travel to another city or country to choose the subject of their dreams. You can continue with your job and/or family commitments while enrolling the subject that you wish to get a doctorate in.
- **Access to Faculty** - You get to engage one-on-one with faculty members via email, messages, video chatting and discussion boards.
- **Cost** - When Compared to a residency traditional Program, Part-time doctoral degree is far less priced. Besides, now that you are not attending regular campus classes, you also save on accommodation, travelling and other costs. Not to mention, while you pursue a part-time Ph.D You do not have to quit your job which means the salary doesn't stop and the money flow continues.
- **Skill** - A part-time Ph.d Program candidate who manages study with work depicts good time management skill along with an ability to stay self-motivated - A Capability that speaks volume when it comes to cracking job interviews and higher job position.
- **More-Rewarding Career** - For any professional, studying for a PhD is a significant venture and so a part-time PhD is likely to elevate your career opportunities – making way to a more-rewarding career.

## CAREER OPPORTUNITIES

It's a common perception that PhD is a study module to become a researcher or a university professor. However, in the current scenario, **the scope of PhD goes way beyond academia**. The hiring landscape in India as well as other nations is changing considerably and many sectors outside academia are preferring PhDs over other candidates.

Now that every company wants employees with good communication, problem solving, writing and critical thinking skills, more and more employers whether **IT, Telecom, Healthcare, FMCG, BFSI and/or social entrepreneurial companies** are looking for executive-level employees with a doctorate degree. This increases part-time PhD candidates' credibility as well as career opportunities as they plan to elevate their job positions in various **innovation-based sectors as well as service-based ventures**.

## Here are Some of the Non-Academia Job Opportunities for PhD Holders–

Post Graduate + 2 Years of Work Experience

## PROCESS OF ADMISSION ↓

Here we Shall Share the Process of University that Offer Part-Time PhD in Various Subjects-

1. Candidates wanting to pursue part-time PhD will first have to **submit a Brief Profile + Channel of Documents** (Educational Degree certificates along with Experience Letter) to the Enrolment/Collaborative Partner of the University.
2. Collaborative Partner will then forward the documents to the University. University will screen the documents. After successful screening the University will allot **Research Offer Letter of Admission** to the candidate.
3. Candidates will have to pay the University's Enrolment partner the enrolment fees to enrol into the course. Once done, the University will provide the **'Certificate of Enrolment'** to the PhD candidate. The same will also be updated on University official website and candidates can double-check on the official university site.
4. The Course / Curriculum begins at University.
5. PhD candidate provides the University with '3 Topics that he/she wishes to prepare for his/her Thesis.
6. University will select a single Topic from the provided three topics and will allot the **'Topic Approval letter'** to the candidate.

7. If candidates have their own Guide, they will have to submit Profile of the Guide. If not, the University will give candidates the provision of a Guide (which will be chargeable). Post this, the University will offer the '**Guide Approval Letter**' after which the Research Scholar can officially start the Thesis work.
8. After successful completion of the Thesis, Guide will submit synopsis to the University. The University will verify it and offer **Synopsis Approval Letter**.
9. Part-time P.hD candidates will then submit the complete Thesis to the University. The Thesis will be screened and the candidate will get a Viva Calling Letter from the University.
10. The PhD candidate will have to present and answer queries in front of the University Committee. After successfully completing the step, University will then offer the candidate **Viva Confirmation Letter**.
11. The next step would be prepare Black Book (2 Copies) of their Thesis and get them both Certified from the University. Candidates will have **Certified Copies** of the Thesis.
12. Candidates will now be awarded a **Research Completion and Publication Letter**.
13. Global Representative of University - will publish the Thesis in UGC Approved Journals (which will chargeable).
14. After successful publication, PhD candidates will get the 'Publication Certificate'. Student will have to submit the same to University.
15. University will then award the candidate with a **PhD degree**.
